 - (ii) determined that the onsite residential sewage discharging disposal system for which the permit is sought is the only possible technology that can be used to effect a repair of the failed sewage disposal system without causing unreasonable economic hardship to the system's owner; and
- (3) the system for which the permit is issued cannot be connected to a sanitary sewer because:
 - (A) there is not a sanitary sewer connection available; or
 - (B) unreasonable economic hardship would result to the system's owner because of:
